@ [REDACTED] a heads up that I've moved the YT Channel RMKT postmortem review to next Wed in the signup sheet. The team spent most of today to finish recovering remaining lost data that's lower priority on the list (but critically for Coda's model training for a few clients). We just started an empty postmortem and wouldn't have time to make it presentable by tomorrow morning

- [REDACTED] 2021-09-08T00:41:05.488Z

Makes sense. What about talking about the last-name targeting incident through CM?

- [REDACTED] 2021-09-08T02:19:04.585Z

Sure that one is ready to go thru. @ [REDACTED] wanna do a 15 minutes summary (+ latest updates) tomorrow?

- [REDACTED] 2021-09-08T02:34:37.499Z

By chance, does anyone in A1 read advertiser conversion data from logs like:

gfstmp\_adsapi.tmp\_aw\_tangle\_api\_adsapi\_log ? This is for a privacy incident report one of our legal is looking at (if anyone is in fact reading this, please send an ACP email to elila@ to give her a heads up on use case.)

A question for anyone w/ relevant knowledge but I guess particularly for [REDACTED]

@ [REDACTED] added you to the other chat room. We are converging to a simple plan on the smaller thread, but not all folks are online right now and it's not actually an after-hours fire. Let's keep details/proposals to the other thread where long term history is not on.

• [REDACTED] 2021-09-09T03:37:48.454Z

Thanks @ [REDACTED]. @ [REDACTED] let's continue the discussion in the separate chat room
